

Hanging Spider Handprint Decorations

ACTIVITY

nannypax

created by nannies, for nannies

This is a fun craft for children of all ages and can be transformed in the summer to become crabs at the beach!

Assemble with:

Black paint

Paintbrush

Paper/card

Googly eyes

String

Hole punch

Glue

1

Squirt black paint onto a plate/tray and use a paintbrush to paint your child's hand (just 4 fingers & palm, not thumbs).

Direct their hand sideways onto the card for one black handprint. Repeat but direct their hand the opposite way onto the card for the spider look.

2

When dry, stick on two google eyes, pierce two holes either side of eyes, thread and knot string through the holes and you're done!

Make plenty to hang up around your home/nursery at Halloween for added spookiness!
